

Appl. No. 10/781,316

RECEIVED
CENTRAL FAX CENTER
AUG 24 2006R E M A R K S

The above amendments to the specification serve to replace the term "trimethylpropane" with --trimethylolpropane-- in Examples 1, 8 and 10 of the present specification.

It is respectfully submitted that the above amendments to the specification involve obvious corrections of obvious errors, in view of the paragraph bridging pages 11 and 12 of the specification, and particularly page 12, line 4 of the specification.

Additionally, applicants have informed the undersigned that it is well-known in the art that "trimethylpropane" has no active hydrogen in the molecule.

Claims 5 and 25 are amended hereinabove to make minor editorial revisions.

Entry of the above amendments is respectfully requested.

If the Examiner has any comments, questions, objections or recommendations, the Examiner is invited to telephone the undersigned at the telephone number indicated below for prompt action.

Respectfully submitted,
